---	---	---	--	---

It is with awe and curiosity, that we can tread into exploration of all things to unlock understanding. Let's activate our WONDER!!!  
 In small groups, we build, publish, adventure, and perform. Our mission is to ignite curiosity while drenched in fun.

**Sports & Games Day** - Coach Manuel and Coach Shirley are ready for you to join A to Z Soccer. Come learn new skills and moves with a soccer ball. We will be emphasizing teamwork, perseverance, and decision making, that they'll be able to apply to all aspects of their life. At 2:30 we will join Josh in Master of the Table for an exciting variety of strategy games! Hone in on your tactical mastery and become the true master of the table as we perfect our skills in different board and card games.

**Model UN and Country-Culture Ambassadors** - From pandemics to human rights; Model UN provides students an opportunity to learn about diplomacy and international relations. We will roleplay as ambassadors that represent various countries throughout the world and attempt to tackle a plethora of world issues while trying to keep the best interest of those that you represent! With great power comes great responsibility.

Let's now add a lovely layer to this amazing Model UN experience! Are you ready to set off on a fun adventure where art and creativity meet geography and cultural exploration? As Country-Culture Ambassadors, we will explore and then create visual representations and props to showcase our Model UN countries. From a traditional costume, mask or culture craft, to a decorative map or flag, we will create vibrant country and culture art pieces using a variety of cool art materials. And what better way to top this all off than with a culminating parade of presentations and United Nations celebration!

**Extreme Building, Blueprints, and Art** - Design a crazy tree house, a wizard tower, and perhaps your own skyscraper. Kids will take their designs and

bring them to fruition with boxes, recycled materials, paint and a glue gun. Kids will also get a chance to develop their own creative style and unique vision of the world as they put their ideas down on anything and everything, from tiny paper to giant canvass. This camp workshop will let kids express their individuality, personality, and show the world who they are.

**Avatars, Extra-Terrestrials, and Fantasy Art** - Have you always wanted to explore Area 51? Are you convinced you could catch a leprechaun if given the chance? Well you are in luck. In this class we will be exploring all things supernatural, those things that seem to flink away when you try to look directly at them. Join Liz in reading and writing about these fascinating topics Together you will listen to the dramatic radio drama War of the Worlds, read first hand accounts of people who swear they have seen the Loch Ness Monster, and look to history for some classic haunted locations. Tommy will help us as we create artworks of aliens, cryptozoological creatures, and our final project.....ourselves as fantastical creatures compete with masks and costumes so we can live out our fantasy in real life.

**Puppet Theater and Published Works** - From script writing to a one-kid puppet show production, students will take their own stories and create characters to bring them to life. Using exercises such as brainstorming, character profiles, and plot charts kids will develop their narrative techniques. The next step is creating the puppets. Inspired by the imagination of Jim Henson and a rich history of puppetry from around the world kids will build their puppets and use them to record a puppet show to share their stories with family and friends.

**How to Be An Explorer of the World...Adventure Seekers** - Join us on a journey of exploration as we set out to find local, hidden treasures that exist all around us! Our adventures will include exploration of our natural setting along with the history and development of our community. Who was Abbot Kinney? Why are the Ballona Wetlands so important? What is Heal the Bay? Is there treasure hidden on the beaches right here in Santa Monica? Each week we will seek out answers to questions just like these as we become experts at navigating and understanding the place we call home.

**Human Body and Mental Fitness** - Exercise your body and your mind as you learn how it all works through interactive activities, projects and puzzles. Each week will have a theme that we explore: Sight, Hearing, Coordination/balance , Fear/emotions, Cardiovascular system, Digestion, Bones/muscles, and The logical/creative brain. The human body is a fantastic, intricate machine. Each cell works together with other cells to form tissues, and then organs. Organs work in conjunction with other organs to form organ systems that integrate and work together to run a living organism. This camp workshop will give you a springboard into understanding how your body works.

**Know What Day! Student Led Learning** - What do you know? What do you wish you knew? How can you learn it all? And once you've learned it, how can you share it with others? If these are the kinds of questions you've been asking, come join us and FIND STUFF OUT! Liz and Joe know a lot of stuff, and what's even better is that they know how to find stuff out - and they can show you how to do it for yourself! This camp will be a great way to learn how to learn stuff, and learn how to share things that you and others find interesting!

**Park Adventures** - Let's get outside and play! Join Kara and Shirley as we explore the wonders of Santa Monica, from the parks to the beaches and even downtown! Join in on the fun, games, crafts, and exploring that is sure to be had! See you outside!

**Peace Warriors & Celebrating Diversity** - What do people really need to be peaceful with each other? What does that look like? As we delve into the true essential needs of all people, we will explore our feelings and understandings- and then express ourselves through a variety of cool creative and artistic means. Through understanding what it means to be a Peaceful Warrior, we will develop a strength from within that we will be able to share with the world. We will also be introduced to cutting edge art, and activism, of some amazing contemporary artists who are showcasing diversity- and the need for fair treatment, respect and dignity for all people. I can't wait to see what we are inspired to create!

REALM's Standalone Camps These camps run from January 20 - June 10				A-Z Soccer ~ \$810.00 LA Trapeze ~ \$540.00 Hiker's Camp ~ \$2,058.00	
MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
	<b>A-Z Soccer</b> (12:30-2:00) (10+) Manuel & Nathan	<b>LA Trapeze - FULL</b> (3:30-4:30) (8+) Nathan & LA Trapeze			<b>Hiker's Camp</b> (11:00-3:30) (8+) Nathan & Kara
<p><b>A-Z Soccer</b> - A-Z Soccer Academy is a Montessori-style of play similar to street soccer where kids learn through experience, problem solving, and active fun. Creativity and self expression are key parts of our camps. Our goal is to keep the kids moving while continuously building their soccer skills and confidence on the field.</p>					
<p><b>Hiker's Camp</b> - In this camp we will explore some of southern California's most beautiful landscapes!. We will experience our rich natural surroundings both in and out of the city. We will hike, climb, swim, investigate, explore, and challenge ourselves to learn about the history, geological diversity, and abundant flora and fauna all around our community!</p>					
<p><b>LA Trapeze</b> - Have your child learn high-flying skills as well as body control and body movement in this semester long circus experience at Trapeze School New York on the Santa Monica Pier. During the workshop your child will be working on Flying Trapeze Skills, Silks, Aerial Hoop, Tight Wire, as well as Juggling. The skills used in these activities will help to enhance self esteem, create good body image, and forge new and exciting physical possibilities!</p>
