**Monday's  
R&B**

An amazing world of adventure is waiting as we learn to read and write!! Our day will be filled with reading incredible books, becoming close to characters that can offer us new perspectives and guide us through discovery of ourselves, each other and our world! Then, we fill the room with Harmony, learning about instruments, composers, and singing with our friends. Next, we step into the world to learn about our world's visionaries. Who are they and what they have contributed to the world? And last but not least, WE learn how to be community caretakers. What can we do to make a difference? Let's find out!

<b>Tuesday's R&amp;B</b>	READY, SET, GO! Today we will be using art, science, games, and contests to learn our math basics; addition, subtraction, multiplication, division, money & time. Then we will get our bodies moving with Coach Rashad...GAME ON! While we cool down from our games with the coach, we will have a little zen time in the Garden with Kara. Get those green thumbs ready!
<b>Wednesday's R&amp;B</b>	An amazing world of adventure is waiting as we learn to read and write!! Our day will be filled with reading incredible books, becoming close to characters that can offer us new perspectives and guide us through discovery of ourselves, each other and our world! Then, we fill the room with Harmony, learning about instruments, composers, and singing with our friends. After a little harmonizing, we will sit down for a little story time. Then it's time to raise the roof with hammer time! We will grab our tool kits and start building, all while learning about Engineers and Architects.
<b>Thursday's R&amp;B</b>	Today we will use art, science, games, and contests to learn our math basics; addition, subtraction, multiplication, division, money & time. Then it's count down to "fa-la-la-la-la" singing with Jessie, and then on to writing, where we will learn to put pen to paper to express ourselves with written words in our Writer's Workshop. And last but not least, it's time to level up our communication skills. We will learn to be problem solvers by practicing peaceful communication.
<b>Friday's R&amp;B</b>	An amazing world of adventure is waiting as we learn to read and write!! Our day will be filled with reading incredible books, becoming close to characters that can offer us new perspectives and guide us through discovery of ourselves, each other and our world! Then it's curtain time! "To be, or not to be," we will put on our best drama faces as we become Kings and Queens of the Theater. Once the curtain falls, we will jump into our airplanes to discover the world, and the natural wonders that await. As our globetrotting comes to an end, we will learn how to be community caretakers, with the chance to brainstorm on how WE can make a difference in our community and the world.

**We say our goodbyes...or move on to fun afternoon classes.**
